

ROSE

June 6, 1967 -
June 2, 1999

Rose is her name,
Flowers are her game
Rod Carey was the one who brought her here
Minaki Lodge & Holst Point for her were dear
Fate brought her to Minaki,
That's where she met Bill Mackie.
Some thirty years ago,
to Birch Island & Don Kendall she would go.
She prospected "black gold" with George Kelly
there,
and the flowers they planted still live everywhere.
Perennials are the way to go,
Says Rosie, who is in the know.
Ski hill construction brought Al Windsor to town.
Rumors of Rosie started going around.

They made a good couple and bought Greilliers
out.
“Rosie’s” was the new place to go out and about.
In leaving her mark in Minaki so dear,
Rosie has planted her heart out at Birch Island,
that’s near,
Today Birch Island is flower laden,
Thanks to all of Rosie’s spaden.
As her son was still missing, she set out to find
him,
and everyone thought that it looked pretty dim,
But low and behold to Australia she went,
Only to find out that good luck had been sent.
Her son she did find and now her life starts anew,
We will miss you forever Rose and all say adeu!

All of your Minaki friends
